

Knowledge is expensive,
but realise what stupidity can cost you

It makes you think...

Don't let someone become a priority in your life, when you are just an option in their life...

Relationships work best when they are balanced.

Never explain yourself to any one.

Because the person who likes you doesn't need it, and because the person who dislikes you won't believe it.

When you keep saving you are busy, then you are never free.

When you keep saying you have no time, then you will never have time.

When you keep saying that you will do it tomorrow, then your tomorrow will never come.

When we wake up in the morning, we have two simple choices.

Go back to sleep and dream, or wake up and **chase those dreams.**

Choice is yours...

We make them cry who care for us.

We cry for those who never care for us.

And we care for those who will never cry for us.

This is the truth of life., its strange but true.

Once you realise this, its never too late to change.

Don't make promise when you are in joy.

Don't reply when you are sad.

Don't take decision when you are angry.

Think twice..., Act Wise

Time is like a river.

You cannot touch the same water twice, because the flow that has passed will never pass again.

Enjoy every moment of life...

First I was dying to finish my high school and start college
And then I was dying to finish college and start working
Then I was dying to marry and have children. And then I was dying for my
children to grow old enough so I could go back to work. But then I was dying to
retire. And now I'm dying. And suddenly I realized I forgot to live.

Please don't let this happen to you.

**Appreciate your current situation and
enjoy each day.**
